

# Steven Storyboard

## 1 I chose a new task

My days always start with a daily meeting with my team's project.  
After that, i chose a new task from the Dashboard.

## 2 Conception/Design

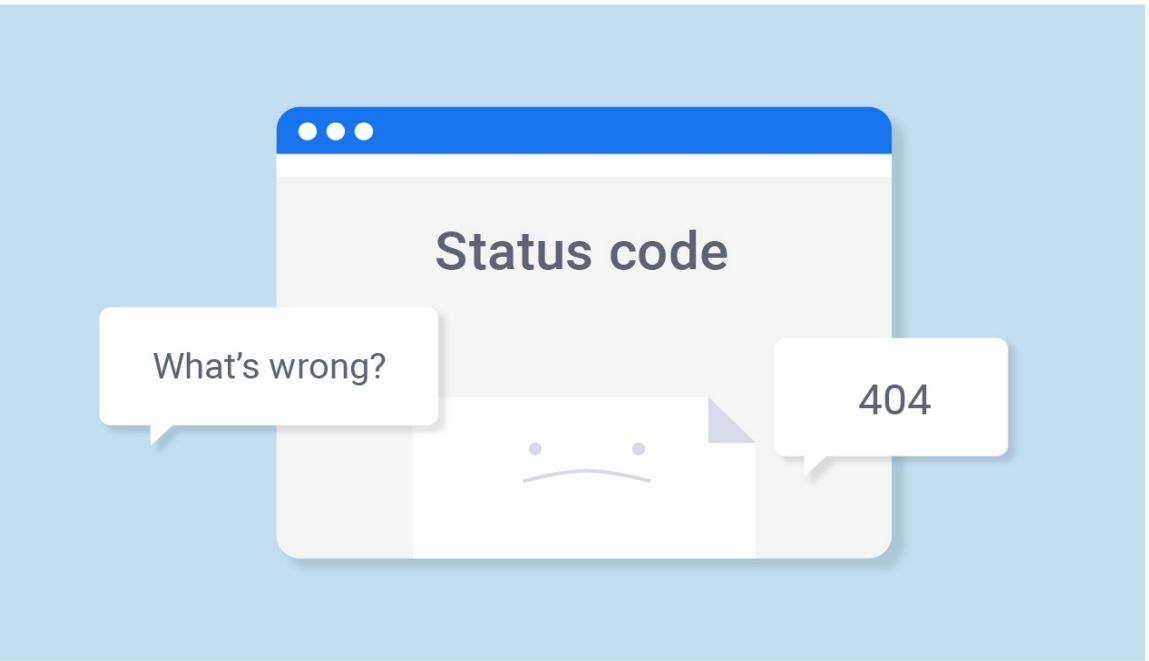

I learned at school as well as my team advise me to start drawing the conception of my task before coding.

## 3 Start coding

I now have a better vision of my task and can start the code.

😊 Joy

## 4 Face a problem

While I was testing my code, I faced a problem.  
I never encounter this before.  
My team is busy and i know that i can lose a lot of time searching on the internet.

🚫 Frustration

***ScheduleMe***

5 Searching solution on ScheduleMe

I remembered a Friday's workshop about this problem.  
So that, I go on ScheduleMe content section and start documenting me.

SUCCESS

6 Complete the task

Thanks to ScheduleMe, I was able to finish my task on time without interrupting my team and wasting time on the internet

✓ Accomplishment
