Software programming tools
Skype industries
Slack for communicating with teammates
Outlook Industries for organize events/meetings

Job Responsibilities

Analyst/Conceptor Software

Their Job Is Measured By

Team productivity
Projects success

Reports to

Manager
Tech Lead

Succes on projects
Deepen her knowledges

Google
Meet-up/Events
Practicing with teammates

Goal

Organize workshop to share her programming watch
Easy access to programming news, content etc...
Write articles

Frustration

Doesn't feel comfortable with Outlook Industries for scheduling workshops/meetings
Doesn't have a space for sharing new content
Losing time searching on the internet for documentation etc...

What SchuduleMe has to offer

Gabriella is a Analyst/Conceptor Software
She has some knowledge to share and programming stuff to learn.
Today, the only things that can help Gabriella are researchs on internet, peer programming and using the very risky outlook industries to organize workshop after a computer watch

With ScheduleMe, Gabriella can log in with his favorite social network, access to the latests content about programming to learn news tips & tricks and schedule the next workshop to share her computer watch.
